

Great news for Reunion Committees and Classmates!

The ***NEW Personal Contact Code*** service from ***Wemetcard.com*** enables classmates to maintain contact with each other even if they relocate or change phone numbers and email addresses. ***Custom contact codes*** can be created online and then forwarded to their reunion committees and also emailed to other classmates. As long as contact information is kept up-to-date online, if the information that the committee or a classmate has, ever becomes outdated, they can simply go to ***personalcontactcode.com*** and enter the classmates code to obtain ***updated*** contact information. Because of the many great ***Premium*** benefits given to members, monthly newsletters and complete access to the entire ***WeMetCard Contact Services System***, members have an incentive to keep their information up-to-date. Members can also earn lifetime recurring commissions just for spreading the word about the service to other classmates, friends and family that sign up to use the service.

Visit PersonalContactCode.com and create your contact code today!
